

## Smallest Multi-Sensor Beacons Detecting

### Location Tracking

Option of Bluetooth, GPS or Cellular Tracking

### Easy Charging

Rechargeable batteries with standard USB plugin - NiMH aircraft safe  
Solar charging option available

### Temperature

NIST  $\pm 0.1^{\circ}\text{C}$   $-40^{\circ}\text{C}$  to  $+85^{\circ}\text{C}$  or ( $\pm 1.0^{\circ}\text{C}$ )

### Humidity

$\pm 3\%$  RH from 0 to 100%

### Barometric Pressure

300 to 1100 hPa (mbar)

### Shock & Vibration

Up to 8g,  $\pm 3\%$

### Light Sensing

Lumens

### Air Quality

AQI range 0 to 500

## ColdChase Multi-Sensor Beacons

Environmental sensing, geolocation, and data integrity

## Cloud WEBUI and API Software

Set alert limits, send and receive real-time alerts, Geofence routes, data analytics, and traceability

## Warehouse Beacons

Track warehouse environment and transfer sensor beacon data to-and-from the cloud in real time

## Cell Phone Gateway App

Free, downloadable app for Android or Apple that transfers live data to-and-from Bluetooth beacons and enables in-warehouse tracking of beacons

# ColdChase™

## Real-Time Global Tracking Solutions

## End-to-End Product Visibility

| USER Programmable

| Live Two-Way Interface

| Airplane Mode

| Intuitive Smart Sensors

| Never Miss Crucial Data

[coldchase.ca](http://coldchase.ca)

# End-to-End Product Visibility

Our real-time global tracking system provides detailed, accurate supply chain monitoring from producer to customer.

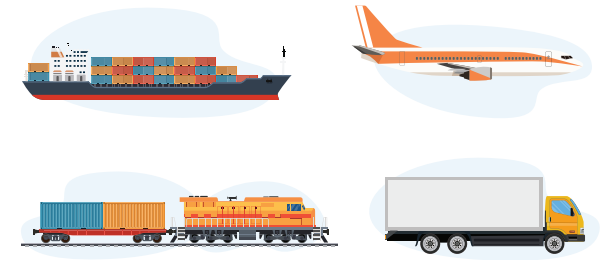

## WAREHOUSES

## SHIPMENTS

## TRANSPORTATION

## Warehouse Technology

- Monitor Products in Storage
- ColdChase BLE Enabled

- Temperature
- Humidity
- Barometric Pressure
- POE Connection
- Bluetooth Gateway

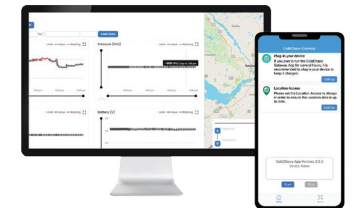

## Tracking Technology

- Smallest Global Tracking Beacons
- Airplane Safe
- Rechargeable
- Intuitive Smart Sensors
- USER Programmable Interface

- Light Sensing
- Temperature
- Humidity
- Air Quality
- Barometric Pressure
- Shock & Vibration
- BLE, GPS & Cellular
- Location Tracking
- Encrypted Real-Time Data Capture

## End-to-End Web Visibility

- USER Programmable
- Live Two-Way Communication
- Global View
- GeoFencing
- Route Planning & Tracking
- Real-Time Alerts
- API
